A strategic acquisition

Technicost purchases eroSERVE from Celero. To promote continuity in the Prairie Provinces, the software will keep the name eroServe LOS. Elsewhere in Canada, it will be known as TechLOS.

The goal of this acquisition is to offer a high tech alternative to existing clients and enhance the product by adding several new functionalities, including the following:

1. Forms adapted to meet the specific needs of several Canadian provinces.
2. Interfaces that communicate with various market systems, such as the CMHC, Trans-Union Credit Bureaus and the PPSA.
3. New communication links with the most common banking systems in Canada.
4. Access to automated credit decision models.
5. And many more!
